

THE WEEK IN BORDEAUX

NEWSLETTER n°4

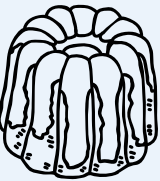

MARCH 2023

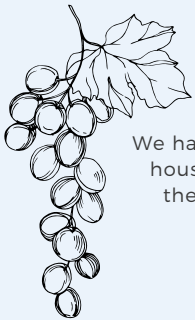

MONDAY 06/03

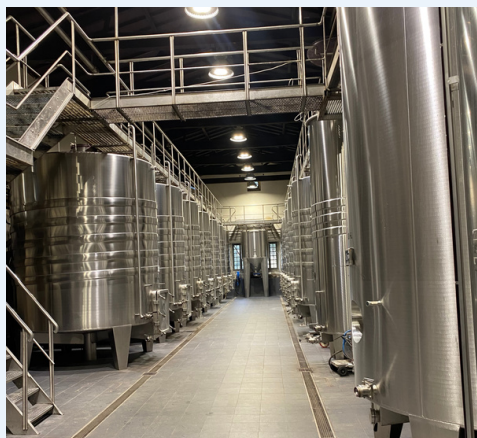

The day began with welcoming Dutch and Portuguese students. After a friendly breakfast, we had planned some ice-breaking game. Then each group worked on their respective projects. We also organized a two-hour rally to discover the city of Bordeaux, followed by a visit to the City Hall. The evening ended with a friendly pizza party to celebrate the arrival of our guests.

TUESDAY 07/03

We had a memorable day thanks to the visit of the Château Reignac and the Cité du Vin. We visited the estate, the house, and discovered where the wine is made and stored according to its age. We also tasted quality wine. We then continued our day at the Cité du Vin for an exciting guided tour, as well as an invitation to wine tasting.

WEDNESDAY 08/03

The day started with a group work session for the different projects. We then had our lunch at the high school cafeteria. After that, we went to the 1kubator at 2 pm to meet with startup managers.

THURSDAY 09/03

In the morning, the project teams gathered to put the finishing touch on their pitches. After a year of intense work, the teams presented their projects at the Regional Council Meeting Hall in front of the Vice-President of the Regional Council, Mr. Jean-Louis Nembrini. A cocktail was then served to celebrate the success of these large-scale collaborative projects.
